For Equestrians
For You

Approximately
48,000 bicyclists

were injured and 743 were killed in motor vehicle traffic crashes in the United States in 2013.

and me.

In Washington state between 2011 and 2013 **5,856** **pedestrians** were injured. Of those, 857 were serious injuries **like mine**, and 190 were fatal.

Let's change these statistics by making a positive change together. Bring awareness to the need for safety and funding to keep our paths safe for ALL who use them.

WHY YOU NEED

This August, over a two-week period, Ian Mackay will travel the state of Washington from top to bottom by power wheelchair.

Ian has always loved bike touring and thought that hobby died eight years ago

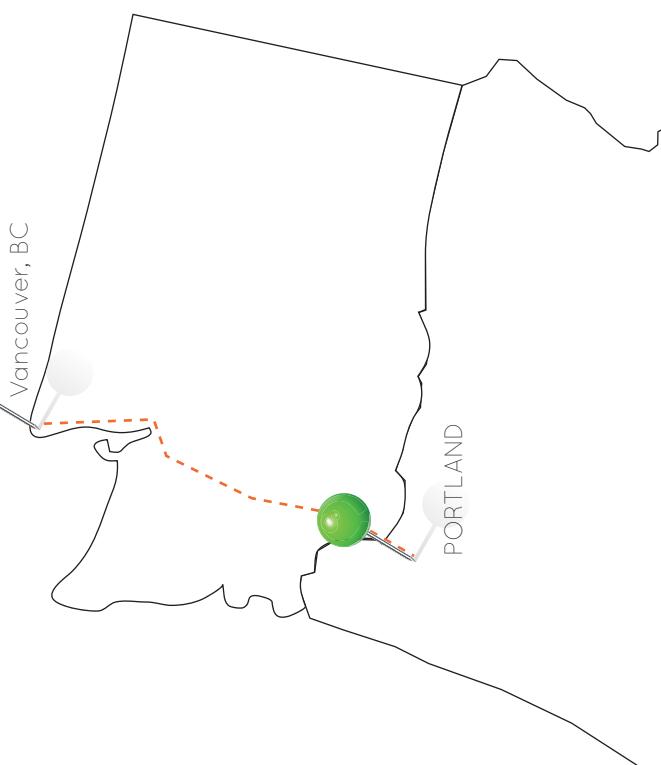

The August trip is planned to raise awareness of the value of bike paths and safety on the roads of our state.

Ian will be traveling with an entourage. Caregivers, bike riders, and supporters are joining him on the journey. Bike paths will be used wherever possible. Ian will blog daily on his progress. Fundraising is underway to help

AN UNPRECEDENTED JOURNEY

Bringing awareness and societal obligation for our generation and the next.

when he broke his neck in a bicycle crash and became paralyzed from the neck down. His love of bike trails has continued, and he spends much of his time on the Olympic Discovery Trail in his hometown of Port Angeles, Washington. Last year, he clocked 2,200 miles, primarily on bike paths.

pay for the cost of lodging, fuel and staffing. The excess funds will be donated to Washington Bikes, a 501(c)(4) nonprofit advocating for bicyclists and a more bike-friendly Washington state.
